## NEWS & UPDATES

### After A Car Accident, a Comprehensive Investigation of the Facts is Necessary

At The Law Offices Of Dianne Sawaya your car accident attorney will work in collaboration with crash investigators, engineers, medical experts, and others in an effort to establish what happened, and who was responsible, as well as to determine what the claim is worth. Your car accident attorney will use: the accident report, any photographs taken at the scene of the accident that show property or personal damages, statements from witnesses to the accident, your medical records and medical expenses, your lost wages assessments, and accident reconstruction reporting to determine the facts of the accident and the compensation you are entitled to receive.

It is almost a certainty that you will face frustrations, pain, and financial challenges following your Denver car accident—all of which can greatly benefit from the compassion and advocacy of an experienced Denver auto accident attorney. Since every car accident has unique aspects, it is impossible to say exactly how your claim will progress. What is certain is that if the insurance company refuses to pay a fair settlement after your attorney's demand, a trial may become a necessity. Unfortunately, trials can take a significant amount of time, leaving you without the financial resources you need and deserve. You need and deserve a Denver auto accident attorney who is both a highly skilled negotiator, as well as an aggressive litigator when warranted.

At the Law Offices of Dianne Sawaya, our experienced car accident attorneys understand you will be going through a tough time after the accident. However, working with a knowledgeable Colorado car accident attorney can help get your life back to the way it was prior to the car accident.

**IT'S MORE THAN A SLOGAN.  
IT'S OUR MISSION.**

**SMART**

At the Law Offices of Dianne Sawaya, we make educated decisions for your unique situation because we are familiar with medical treatments and can easily communicate with medical providers. When you call us after you've been injured in a car crash, truck accident, or another type of negligence-caused accident, our team works as a dedicated cohesive unit, pooling all our knowledge to make sure we have explored all your options. We can confidently explain it all to you—complex medical procedures, confusing insurance, legal terminology, and more. We want you to understand what options are available to you, and how your family can move forward.

**AGGRESSIVE**

When you hear the words “fight” or “aggression” you may immediately think of yourself being thrown into a stressful trial proceeding. This happens in a small number of cases. In fact, it's our reputation of being aggressive with big insurance corporations that results in fair settlements and avoids the need to go to trial. We make it our mission to only litigate when it is appropriate. However, if going to trial is in your best interest, we will be more than capable of advocating for your family. We'll do so with aggression and might because we know just how much is at stake for you and your loved ones.

**COMPASSIONATE**

This is a very emotional time. You're healing, you're coping, and you're fighting every day. Whether you have been seriously injured or you are grieving the loss of a loved one because of someone else's negligence, this truly is a tumultuous time. When you're dealing with the aftermath of an injury-causing event or a wrongful death, you are already weary of the heavy burden of stress and grief. If you are coping with an injury or the wrongful death of a family member, we will provide you with compassionate and personal service, treating you as if you were our own family members. We embrace you

and your family, showing you the care and attention we would give to our own loved ones. Contact the Law Offices of Dianne Sawaya today.
